

STUDY PUBLIC HEALTH AND HEALTH PROMOTION

If you are interested in working with organisations that enable individuals, groups and whole communities to reach their health potential then our certificate in public health and health promotion could be for you.

New Zealand Certificate in Public Health and Health Promotion (Level 5)

Start date	11th February 2019
Duration	Part-time over 1 year
Cost	\$3,200 (approx.), scholarships may be available*
Location	2 day introductory workshop, online learning resources, 5 further workshop days throughout the year and optional evening tutorials

Designed in a flexible way to allow you to work and study.

This programme will equip you with knowledge and skills around health in the context of Aotearoa, public health, hauora maori, building relationships and evidence based practice. We also value an active learning approach so an 80 hour workplace experience is included. (This could be your own workplace if appropriate).

There is a demand for individuals qualified in this area so find out more about how we can help you work towards this rewarding career.
