The History of the Molesworth and Rainbow Stations Presentation by John Orchard

Part of the Marlborough Historical Society Winter Series. This presentation from passionate expert local historian John Orchard includes the history and geography of these iconic features of our heritage.

From the 1850s the main inland route between Nelson/Marlborough and North Canterbury ran through the heart of Molesworth. The old cob accommodation houses at Tophouse, Rainbow, Tarndale and Acheron are reminders of this. The stock routes never subsequently became public roads and throughout most of the 20th Century, Molesworth remained terra incognita to the vast majority of New Zealanders.

Molesworth today is an amalgamation of four separate pastoral leases - Molesworth, Tarndale, St Helens and Dillon - abandoned to the Crown between 1938 and 1949 because of rabbit infestation, stock losses in disastrous snowfalls, and economic recession. Molesworth has remained in Crown ownership and gradually recovered from its earlier desolation, thanks to extensive rabbit control and over-sowing of some 37,000 ha in the 1950s and 60s.

VJ Day in Marlborough 75 years ago

Presentation by John Orchard

Part of the Marlborough Historical Society Winter Series.

Note: this day has been chosen for the presentation because it follows the actual 75th Anniversary Day date of 15 August.

Japan's surrender following the detonation of atomic bombs over the cities of Hiroshima and Nagasaki ended the Second World War. More than 200,000 New Zealanders had served during six long years of war, and more than 11,500 had died.

News of the Japanese surrender arrived in New Zealand at 11 a.m. on 15 August. As with VE Day in May, VJ Day events were regulated by officialdom. Once again, the preparations had been considerable, and the celebrations generally ran smoothly.

Sirens sounded immediately, a national ceremony was held, and local celebrations followed. Once more there were parades, bands playing, thanksgiving services, bonfires, dances, and community sports meetings, and again there was a two-day public holiday.
